Interface  
Composure  
Harmonious  
4169015

# Three sizes, infinite solutions

S

**se:cube S: 150 x 100 cm**  
Especially suitable  
for phone calls and  
concentration.  
One to two persons.

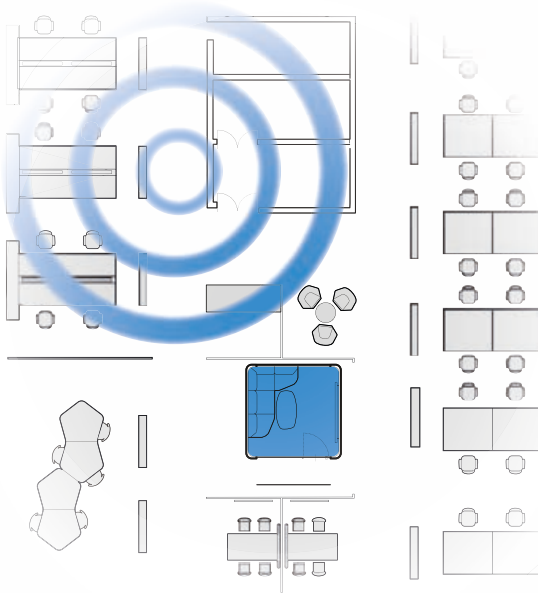

M

**se:cube M: 200 x 150 cm**  
Best for small meetings  
or concentrated work.  
One to four people.

L

**se:cube L: 250 x 250 cm**  
Particularly suited for  
video conferencing,  
meetings and small  
brainstorming sessions.  
Up to eight people.

# Acoustic can be a challenge for open space

Open-plan offices are becoming more and more common today. Noise and the lack of possibilities to retreat cause distraction and inefficiency at work.

This leads to an increasing demand for spaces to work in silence.

se:cube

A PLACE TO RETREAT...

A place where you can work alone or make phone calls in complete silence. Moreover, the se:cube provides optimum acoustic shielding from the surroundings working environment in both directions.

A place to meet and have a talk with colleagues without being distracted from outside noise nor creating acoustical interference with colleagues working in the office.

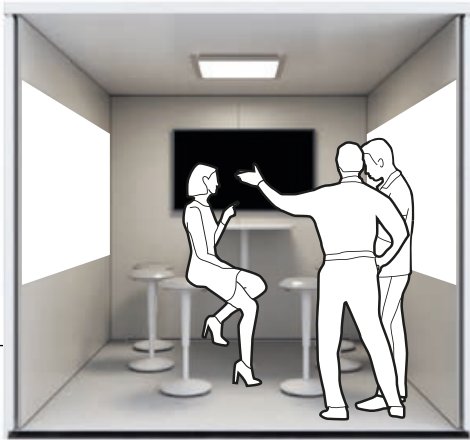

**TO CONCENTRATE**

**TO COMMUNICATE**

A noise-protected place  
to have meetings and short  
effective brainstorming sessions  
with colleagues.

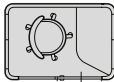

A place to contemplate and to retreat.  
Here it is possible to relax for a moment  
and to regenerate before taking up  
the next sessions.

**TO COLLABORATE**

**TO RELAX**
